

MANHOLE PROTECTOR

Product Code	Pricing Unit	Colour	Dimensions	Pack Quantity	Pallet Quantity
PBMHP	Each	YELLOW	610MM X 610MM X 115MM	25	500

Product Description:

Proguard Manhole Covers are manufactured out of heavy duty, fluted polypropylene, and coloured in high visibility yellow maximising safety for personnel on site.

These strong durable protectors are also lightweight and easy to assemble and can be flat packed away to reuse on future projects.

Manhole covers have the added benefit of being able to add additional weight by placing rubble or rocks within the cover to provide a secure hold. All external covers are fully recyclable.

Benefits:

- Fast & easy identification of manholes on site.
- Easy to assemble.
- Can be filled with material to prevent being blown away.
- Easy to flat pack for storage & re-use.
- Hi-visibility yellow – maintains a professional image on site.

Limitations:

- If left unweighted, strong winds may move the cover from where it was left.
