

PROGUARD FOAM DOOR HANDLE PROTECTOR

Code	Dimensions	Colour	Thickness	Weight (kg)	Pricing Unit
PEFDH1	200mm x 35mm	Grey	5mm	0.66	Box 50

Product Description:

Proguard Foam Door Handle Protectors are an easy and cost-effective way of protecting door handles from damage due to impacts or abrasions.

They are pre-cut to size for convenience and can easily be trimmed down further if needed using a knife or scissors.

On tight fitting door handles no fixing is necessary. For door handles which are a loose fit, a pack of cable ties is included in the box to secure the protectors.

Benefits:

- Impact resistant
- Abrasion resistant
- Water resistant
- Cost effective temporary protection.
- lightweight
- flexible.
- Easily trimmed with a knife or scissors

Application:

Slide the foam door handle protector over the door handle. If necessary, tighten one cable tie around each end of the protector to secure to the door handle. Trim off the loose end of the cable ties, ensuring that no sharp corners are left.
